EDUCATION

Master of Arts in Public Administration, Ajou University, South Korea	2024
Bachelor of Public Administration, Ajou University, South Korea	2020
Exchange student, Technische Hochschule Nürnberg Georg Simon Ohm, Germany	Mar 2019 – Aug 2019

PUBLICATIONS

* Corresponding author

1. Lee, C., Kim, S. * & **Choi, Y.** * (forthcoming). “Why does socialization matter?: Analyzing the socialization and risk perception on energy saving behavior.” *Journal of Safety and Crisis Management*. In press.
 - Conducted surveys with 1,552 participants and applied regression analysis to examine how socialization and risk perception influence energy-saving behavior. Found that peer influence and perceived benefits are key drivers of energy conservation.
- [In Korean]**
3. **Choi, Y.** & Lee, Y. * (forthcoming). “Prioritizing Barriers of Reorganization of the Local Administrative System: Application of AHP Analysis to Jeonju and Wanju Case.” *The Korea Local Administration Review*. In press.
 - Conducted surveys and written interviews with 36 experts and applied AHP analysis to identify key barriers to local administrative reorganization in the Jeonju-Wanju case. Found that actors such as local leaders and residents were more influential than institutional and resource factors.
2. **Choi, Y.**, Jeon, S. * & Kim, S. * (2024). “A comparative analysis of impact of the causal factor on organizational innovation behavior: Focusing on the direct and indirect effects of organizational culture type.” *The Korean Journal of Public Administration*, 33(2), 45-98.
 - Examined the effects of organizational culture on innovation behavior using survey data from 4,133 public employees and moderation analysis. Found that motivation and competency factors influence innovation, with culture types (innovation-oriented, relation-oriented, hierarchy-oriented) moderating these effects.
1. **Choi, Y.**, Kim, S. * & Kim, G. * (2022). “The multidimensionality of solar energy acceptance: Exploring conditions.” *Korean Policy Studies Review*, 31(3), 179-227.
 - Investigated factors influencing public perception of renewable energy using survey data from 1,020 respondents and multivariate regression analysis. Identified risk perception, trust, and political factors as key determinants.

CONFERENCE PRESENTATIONS

“A Study on the Determinants of Acceptance for High-Level Radioactive Waste Disposal Facilities”

- *The Korean Association for Disastronomy, Oct 2023, Samcheok, Republic of Korea*

“Factors Affecting Energy Saving Behavior – Focusing on Energy Socialization”

- *The Society for Risk Analysis (SRA), Jun 2023, Lund, Sweden*

“Analysis of Causes of the Gap between Energy Saving Intentions and Actions and Policy Implications”

- *Asian Association for crisisonomy, Jul 2022, Jeju, Republic of Korea*

“A Study on the Gap Between Intentions and Actions in Responding to Climate Change: Focusing on Risk Perception”

- *Korean Association for Policy Analysis and Evaluation (KAPAE), Dec 2022, Suwon, Republic of Korea*

“The multidimensionality of solar energy acceptance: Exploring conditions”

- *The Korean Association for Policy Studies (KAPS), Apr 2022, Seoul, Republic of Korea*

FUNDED PROJECTS

5. “High-Level Radioactive Waste Management Academic Professional Manpower Training University Support Project” (\$250,000, 2023 – present)

- *Funded by the Korea Ministry of Trade, Industry and Energy*
- *PI: Seoyong Kim, Ajou University*
- *Role: Research assistant (conducted surveys, research design, data analysis and writing)*

4. “Greenhouse Gas Reduction Innovative Talent Development Project” (\$646,100, 2022 – present)

- *Funded by the Korea Ministry of Education & the Korea Ministry of Trade, Industry and Energy*
- *PI: Jinwon Park, Yonsei University; co-PI: Seoyong Kim, Ajou University*
- *Role: Research assistant (conducted surveys, data analysis and writing)*

3. “Evidence-based Empirical Studies of Energy Transformation System: Study on Transition & Innovation Conditions and Policy Model-Agenda for Constructing New Energy Society based on Syn-chronic Combination of Society, Technology, and Institution” (\$1,150,000, 2021 – present)

- *Funded by the National Research Foundation of Korea*
- *PI: Seoyong Kim, Ajou University*
- *Role: Research assistant (conducted surveys and data analysis)*

2. “Development of criteria for qualitative evaluation of research program evaluation and institutional management evaluation in GRIs” (\$107,600, 2022 – 2023)

- *Funded by the Korea Ministry of Science and ICT*
- *PI: Seoyong Kim, Ajou University*
- *Role: Research assistant (data collection and writing)*

1. “A New Digital Gap and Government Role in the Digital Transformation” (\$69,200, 2022)

- *Funded by the Korea Ministry of Science and ICT*
- *PI: Seoyong Kim, Ajou University*
- *Role: Research assistant (data collection)*

WORK AND EXPERIENCE

Ajou University, Republic of Korea

2022 – 2024

[Teaching Assistant]

- Government Regulation (*undergraduate, Spring 2022 & Spring 2023*)
- Japanese Industry and Enterprise (*undergraduate, Spring 2022 & Spring 2023*)
- Trade and Industrial Policy (*undergraduate, Fall 2022 & Fall 2023*)
- Asian Community (*undergraduate, Fall 2022 & Fall 2023*)
- Introduction to Japan (*undergraduate, Spring 2023*)
- Local Administration (*undergraduate, Spring 2023*)
- Case Studies in Public Policy Making (*undergraduate, Fall 2023*)

Korea Land and Housing Corporation, Republic of Korea

Sep 2018 – Dec 2018

[Intern]

- Assisted in accounting resolutions, progress payments, contract management, and bid postings at a government organization focused on housing welfare.
- Collaborated with fellow interns to organize an event to educate about the organization's planned activities.

AWARDS AND HONORS

 Excellence in Thesis Award, *Ajou University*

2024

Teaching Assistantship, *Ajou University*, \$8,500

2022 – 2024

Kang Raesung Excellence in Thesis Award, *Ajou University* \$1,800

2023

DATA ANALYTICS TOOLS

 Statistical analysis (R, SPSS)
